DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Krinsky on 14 April 2006.

The application has been amended as follows:

Amend claim 1 to read as follows:

A remote child monitoring system comprising:

a plurality of transmitters for monitoring audio at different locations and automatically transmitting the monitored audio at different frequencies from the different locations;

at least one receiver remote from the transmitters for receiving and announcing the transmitted audio from the plurality of transmitters;

the receiver having a first mode for sequentially announcing the transmitted audio from the transmitters and a second mode for announcing the transmitted audio from a selected transmitter; and

wherein the receiver includes a different indicator for each transmitter and indicates which transmitter is being announced; and
wherein each transmitter has a different color housing, and the indicators have a corresponding color.

Amend claim 14 to read as follows:

The system according to Claim 1, wherein the receiver includes indication of which transmitter is being announced and ~~level of the audio being announced~~ a strength of received signal being announced.

Amend claim 17 to read as follows:

The system according to claim 1, wherein the receiver includes indication of ~~level of the audio being announced~~ a strength of received signal being announced.

Amend claim 24 to read as follows:

A remote child monitoring system comprising:

a plurality of transmitters for monitoring audio at different locations and automatically transmitting the monitored audio at different frequencies from the different locations;

at least one receiver remote from the transmitters for receiving and announcing the transmitted audio from the plurality of transmitters; and

the receiver having a first control for selecting sequentially announcing the transmitted audio from the transmitters and a plurality of second controls, one for each transmitter, for selecting and announcing the transmitted audio from a selected transmitter; and

wherein each transmitter has a different color housing and the receiver includes buttons having a corresponding color.

Cancel claims 15, 16 and 26.

Allowable Subject Matter

2. Claims 1-14 and 17-25 are allowed.
3. The following is an examiner's statement of reasons for allowance: with respect to independent claims 1 and 24, the prior art does not disclose nor suggest a remote child monitoring system wherein there are a plurality of transmitters for monitoring audio at different locations and automatically transmitting the audio at different frequencies from the different locations with a remote receiver for receiving and announcing the transmitted audio wherein the receiver has a first mode for sequentially announcing the transmitted audio from the transmitters and a second mode for announced the transmitted audio from a selected transmitter wherein each transmitter has a different color housing and the receiver includes indicators or buttons that have a corresponding color and indicate which transmitter is currently transmitting.

Art Unit: 2612

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
